

Tammy Taylor Peach Spa Pedicure Procedure

(Do each step on each foot, **before** moving on to the next step.)

Step 1 Prepare Bath

Fill foot bath with warm water. When using a **Spa Tub with “jets”**: add Peach Spa **Moisturizing Soak** to water. Place client’s feet in foot bath.

In Vibrating unit: When using a Pedicure Tub **without “jets”**, add a squirt of Peach Spa **Anti-Bacterial Soft Soak** and Peach Spa **Moisturizing Soak**. Place client’s feet in foot bath.

- **Note**: To remove “thick” callus quickly and easily, file the callus with a Foot File while the foot is dry, then place foot in bath.

Step 2 Pedicure Nails

Remove foot from bath and pat it dry. Pedicure nails, remove polish, clip nails, file, apply Peach Spa **Creamy Cuticle Remover** and put back in bath.

Note: Let the Peach Spa **Creamy Cuticle Remover** soak in bath before pushing back cuticle.

Step 3 Smooth Callus

Remove foot from bath and pat dry. Apply Peach Spa **Callus-Soft** to all rough, dry callus areas then apply to whole foot and massage 2-3 minutes. This will soften dry skin and leave the foot soft.

Note: Before rinsing, smooth callus with a Foot File; push back cuticles and exfoliate.

Step 4 Exfoliate

Apply Peach Spa **Exfoliating Scrub to foot and lower leg**, massage 2-3 minutes. Rinse thoroughly while placing foot in bath.

Step 5 Massage

Remove foot from bath and pat dry. Apply Peach Spa **Moisture Lotion** to foot and lower leg, massage 5-7 minutes. Do not rinse, wrap foot in towel.

Step 6 Clean Nails and Polish

Clean off toenails and follow with polish.
